ANNEX

FEEDBACK FROM DELEGATIONS ON IOPC/NOV25/11/WP.1/Rev.1

(proposed new text in bold)

Comments on section 4.5: Development of a guidance document – Procedures for determining whether a ship falls under the 1992 Civil Liability Convention or the 2001 Bunkers Convention

Amendment proposed by ICS (original English)

- 4.5.13 One delegation noted that a single page in the Oil Record Book may include multiple voyages and sought clarification on when an Oil Record Book would be considered as being countersigned. ICS stated that **while the Master's countersignature at the bottom of a completed page was a mandatory requirement, in the event of signing an uncompleted page**, it is industry practice for the Master to sign at the bottom of the page at the end of a group of operations and score out the empty parts of the page to prevent subsequent entries from being made.
