2014 IOPC Funds' Short Course

The Director is pleased to announce that the fourth annual IOPC Funds' Short Course will take place from Monday 7 to Friday 11 July 2014 in London.

As with the previous courses, the programme will cover all aspects of the work of the IOPC Funds and will include practical exercises involving a theoretical incident and the subsequent claims submission process. The Short Course, which is supported by the International Maritime Organization (IMO), the International Association of Independent Tanker Owners (INTERTANKO), the International Chamber of Shipping (ICS), the International Group of P&I Associations, and the International Tanker Owners Pollution Federation (ITOPF), will also offer participants the opportunity to understand the relationships and common objectives of all stakeholders which are particularly important in tanker incidents where the 1992 Civil Liability and Fund Conventions operate.

The Short Course has a maximum of ten places. Nominations for participation should come directly from governments of 1992 Fund Member States and should be accompanied by the completed nomination form and the candidate's brief curriculum vitae. Although the Secretariat does not impose any specific background requirements, the Course will clearly be most beneficial to candidates with an in-depth involvement and interest in the practical application of the 1992 Civil Liability and Fund Conventions. It is expected that Member States nominating a candidate will ensure that this is the case. Should the number of nominations received exceed availability, candidates will be selected by the Secretariat, taking into account a reasonable balance in geographic representation.

With regard to funding arrangements, Short Course participants must be self-funded or supported by their nominating government so as to avoid any budgetary implications for the 1992 Fund.

The Secretariat regrets that it is unable to help successful candidates with obtaining entry visas to the United Kingdom. Successful applicants will, however, be issued with an official invitation to participate in the Course from the IOPC Funds' Secretariat which may assist in obtaining a visa.

As the Short Course will be given exclusively in English, it is expected that candidates will be fully conversant with the English language and be able to interact fluently in this language.

The deadline for the receipt of nominations is **Friday 14 March 2014** and it is anticipated that a selection decision will be made by the end of March. Nominations should be addressed to the Director of the IOPC Funds and sent via email to emer_padden@iopcfund.org. Please ensure that electronic submissions are appropriately endorsed by the nominating government.

A copy of the course outline (which may be subject to modification) is attached hereto. The nomination form can be downloaded from www.iopcfunds.org and completed electronically.
