AMENDMENTS TO FINANCIAL REGULATIONS

Note by the Director

Summary:	This document sets out proposals by the Director for amendments to the 1971 Fund's Financial Regulations. Some of these amendments are required as a result of the establishment of the Supplementary Fund. Others are proposed, after discussions with the External Auditor, in order to strengthen the internal control or in the light of developments and experience.
Action to be taken:	Consider proposals for amendments to the Financial Regulations of the 1971 Fund.

1 The issue

- 1.1 The 1971 Fund Assembly adopted Financial Regulations at its 3rd session in 1980 which deal with various aspects of the 1971 Fund's finances, in particular with accounts, investments, internal control and audit. These Regulations have been amended from time to time.
- 1.2 As a result of the establishment of the Supplementary Fund, Financial Regulations of that Fund will have to be adopted. The establishment of that Fund also requires certain amendments to the 1971 Fund's Financial Regulations. In this connection the Director has examined the 1971 Fund's Financial Regulations in order to establish whether they should be modified in the light of developments and experience. He proposes a number of amendments, some of which are of a purely editorial nature, others result from the establishment of the Audit Body.
- 1.3 The External Auditor, who has been consulted, has made a number of proposals for amendments in order to strengthen the financial control and to adapt the Regulations to today's auditing standards, for example Regulations 9.2, 11.7, 12.3 and 14.2. The substance of these proposals are reflected in the Director's proposals. Consultations have also taken place with the Audit Body and the Investment Advisory Body.
- 1.4 The present text of the 1971 Fund's Financial Regulations are set out in the left-hand column of the Annex to this document, and the proposed amended text in the right-hand column. The proposed amendments are highlighted or otherwise indicated. Attention is drawn to the following provisions.
- 1.5 Amendments have been made to a number of provisions to take into account the establishment of the Administrative Council and the fact that the Executive Committee no longer operates.
- 1.6 The majority of the amendments to Regulation 7 have been proposed in order to follow more closely the terminology in Article 12.2(a) and (b) which refer to "satisfaction of payments". The amendments are also in line with the 1971 and 1992 Funds' longstanding practice of aggregating

payments of claims and claims-related expenditure under the maximum amount payable from the General Fund under the 1971 Fund Convention of 1 million SDR (under the 1992 Fund Convention 4 million SDR).

- 1.7 Regulation 10.4(c) deals with the maximum amount to be invested by the Funds in any given financial institution. In their report to the governing bodies of the 1971 and 1992 Funds at their October 2004 sessions, the Investment Advisory Bodies (IABs) of the 1971 and 1992 Funds questioned whether the Funds' normal limit of £15 million for investment with any given institution would be practical, should there be a major spill resulting in claims significantly exceeding the maximum amount payable under the 1992 Conventions, ie 203 million SDR (approximately £170 million). There were 62 financial institutions on the list of approved institutions whereas the Funds placed deposits on a regular basis with 27 financial institutions. In theory, if £15 million were placed with 27 financial institutions, the Funds would be able to manage assets of £405 million, but this, according to the IABs, was not a practical scenario. The IABs expressed the view that the investment criteria should not be weakened in order to include a number of less creditworthy financial institutions. The IABs recommended to the Director that Financial Regulation 10.4(c) should be amended so as to permit investments up to a maximum amount of £25 million with any one institution when the three Funds' combined assets exceeded £300 million. The Director's proposal follows this recommendation.
- 1.8 The IABs also referred to the fact that the assets of the 1971 Fund were expected to decrease. Financial Regulation 10.4(c) of the 1971 Fund provides that the maximum investment in any one financial institution shall not normally exceed 25% of the 1971 Fund's total assets. The IABs recognised that a problem would arise when the 1971 Fund's assets fell to such a low level that it would not be practical to limit each 1971 Fund investment to 25% of that Fund's assets. The IABs recommended to the Director that Financial Regulation 10.4(c) of the 1971 Fund should be amended to the effect that this restriction should only apply when the 1971 Fund's total assets exceeded £10 million. Also in this regard the Director's proposal follows the IABs' recommendation.
- 1.9 It is proposed that the mandates of the Audit Body and the Investment Advisory Body should be annexed to the Financial Regulations (cf Regulations 10.3 and 13). Proposals for revised mandates for these Bodies will be considered by the Administrative Council under agenda items 7 and 8 respectively.

2 Action to be taken by the Administrative Council

The Administrative Council is invited

- (a) to take note of the information contained in this document; and
- (b) to consider the proposed amendments to the 1971 Fund's Financial Regulations.
